

LOGOTHERAPY REFRESHER WORKSHOP

21 May 2017

All are invited to this interesting topic, workshop and discussion called

COLLATERAL BEAUTY.....

TIME, LOVE AND DEATH....

Come and enjoy a thought provoking and insightful afternoon with a controversial topic the Logotherapeutic way!

We will be exploring collateral beauty between time, love and death. The powerful, prominent figures now and in the past, making or braking human beings, while all is in the search for meaning and sometimes done in the name of love. We will explore life's meaning in the face of suffering and the victory beyond any understanding. We will be looking at people, the depths they went to live, love, search, feel, destroy, enjoy, empower, discover, committed the unimaginable crimes, assisting people out of poverty and deliver peace beyond any understanding of normality as seen by us from a self-distancing point of view guided through the thoughts and insights of Viktor Frankl and Teria Shantall books; The doctor and the soul and Life's meaning in the face of suffering.

We will be exploring their passion, thoughts and commitments while reflecting on all the questions that Logotherapy would ask to find meaning in suffering. The aim is to see both sides of life, good and bad, in a Logotherapeutic way while also using the human ability to self-distance and see things in a perspective manner, while looking at the past and the current way of the human method of choice in life.

Time: 14H00 to 17H00

Venue: Eagles View Guests House /Conference Centre
